Chauvon Denae'

VIRTUAL CFO & TAX STRATEGIST

SPEAKING MEDIA KIT

Hi, I'm Chawon!

VIRTUAL CFO + TAX STRATEGIST

I partner with and empower women entrepreneurs to get clarity around their business money so that they can finally start consistently paying themselves, make informed financial decisions, and stop wasting money on taxes they don't owe.

As a woman working in the business sphere, I know it can be daunting. People underestimate us, but not for much longer. I'm setting out to change that.

I help women entrepreneurs running creative businesses to harness the power of organization, financial management, and focused strategy, all with the aim of getting their goals in check.

In addition to running my firm, I love to educate & train, passing along my knowledge when it comes to business money management.
